TROCAL 76.
Weather seal. AluClip Pro.

Elegant design with excellent heat insulation.

» TROCAL 76 AluClip Pro.

With TROCAL 76 you can design a living environment that ideally reflects your personal preferences. The modern TROCAL 76 PVC-U window satisfies all requirements of design, function, construction physics and insulation, and it is also eco-friendly and durable. Discover the advantages of TROCAL 76. The AluClip Pro version optimally combines the materials of PVC-U and aluminium.

TROCAL 76. Window and door systems with 76 mm construction depth.

■ Excellent heat insulation.

The AluClip Pro has an aluminium profile connected to the PVC-U profile. The aluminium performs the static function so no steel reinforcement is necessary inside the window casement. Among other things, the material plastic fulfils the prerequisite for optimum thermal insulation here.

■ High noise protection.

The plastic-aluminium combination of TROCAL 76 AluClip Pro also delivers excellent noise protection values.

■ Diversity of design.

The AluClip Pro version provides you with a practically unlimited choice of colour schemes and designs, including elegant eloxal and powder coatings.

■ Easy care and durable.

The aluminium facing shell delivers optimum weather protection, excellent stability and is extremely easy to care for.
